

## Super Strada Rage - \$1995

Unleash your ride with the Super Strada RAGE, an e-bike built for power and rugged performance.

Equipped with a **48V 750W motor** and a **10.5Ah PRO battery**, the Rage offers impressive acceleration and a top speed of **20 mph**. The **high-performance front suspension** and **4-piston hydraulic brakes** ensure a smooth, controlled ride, while the **single-speed drivetrain** simplifies gear shifting.

Crafted with an **ultra-light 6061 aluminum frame** rated for two riders, it supports up to 650 lbs. The **Super Strada X-large LCD color display** provides easy access to ride metrics, and integrated LED lights with turn signals keep you visible on the road. Available in **Neon** and **Black Matte**, the Rage is perfect for riders looking for power, style, and versatility in one e-bike.

Extras like a heavy-duty rear rack, foot pegs, and an extended motorcycle-style seat add comfort and convenience for any journey.

## HIGHLIGHTS

**POWER AND RELIABILITY.** The 48V – 20Ah (960Wh) battery with a 750W motor delivers extended range, fast acceleration, and reliable power—perfect for daily tasks when reliability is key.

**STABILITY AND COMFORT.** Super Strada's high-end LAMBDA alloy frame construction was specifically designed to handle two adult riders safely and comfortably at all times.

**SAFETY AND LONGEVITY.** Safety and longevity are key design aspects of Super Strada. 4 piston hydraulic brakes, e-bike approved parts, front suspension and high output lights come standard.

**UP TO DATE INFORMATION.** The oversized color screen provides extra visibility. It allows fast uploads, reprogramming, and a USB port to charge your phone.

**OPTIONS AND VERSATILITY.** Models differ between types of drive train, suspensions, and battery size. Top safety features like brakes, tires, wheels, frame and motor are standard.

## TECH SPECS

**OVERVIEW:** 20 wheels, motor: 48 V 750 W, PRO battery: 10.5Ah, 4 piston hydraulic brakes, front suspension, single speed

**COLORS:** Available in 2 color options: Neon and Black Matte

**FRAME:** Ultra-light 6061 aluminum extra heavy-duty double tubes rated for 2 riders!

**CLASS:** Class 2

**SPEED:** 20 mph

**MOTOR:** 48 V 750 W Super Strada Bafang rear wheel hub motor

**DISPLAY:** Super Strada X-large LCD color display, 5 button controller, type-C USB port

**BATTERY:** 10.5Ah PRO battery mounted under the seat, keyed, with slide out mechanism

**REAR SUSPENSION:** Rigid Frame

**FRONT SUSPENSION:** High-performance front suspension fork with standard build coating for optimal slide performance

**FRONT AXLE:** e-Bike certified axle for safety

**BRAKES:** Super Strada 4-piston hydraulic brakes

**DERAILLEUR:** Single speed

**LIGHTS:** Super Strada front LED light with horn, plus rear LED brake light and turn signals

**EXTRAS:** Adjustable kickstand, foot pegs, heavy-duty utility rear for hauling, optional rear rack available, and an extended motorcycle bench with a higher seating position for enhanced comfort.

**WHEELS:** 20" e-Bike rated wheels double-wall alloy rims for added strength, stainless steel rust-resistant spoke nipples, and thorn-resistant tubes

**TIRES:** e-Bike speed and use rated Kenda Knight 4.0 x 20 (all black)
